Reflection: Lesson Plan Project

In this project for the class EDPE-4005: Seminar and Curriculum at the Secondary Level we were tasked to make our very own lesson plans for a secondary grade of our choice. Specifically, I chose to focus on an 8th grade class. Specifically, I chose to focus on the theme of story elements. The concepts that were going to be discussed in the lesson were setting, character, dynamic character, static character, plot, exposition, rising action, climax, falling action and resolution. Moreover, the assessment part of the class I decided would be more question and discussion based. In conclusion, this project allowed me to create a complete lesson plan that would be engaging in an 8th grade classroom which will ultimately be of great use in my future career as a teacher.
